SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES INLAND REGION

United States Attorney General Speaking in Sacramento, Sacramento County

The United States Attorney General Jeff Sessions is in Sacramento at the invitation of California Police Officer's Association to deliver comments at the 26th Annual Law Enforcement Legislative Day conference. Federal agencies are handling dignitary protection; Sacramento PD is handling crowd/traffic control in the City of Sacramento; and CHP is assisting with any needed freeway traffic control. The Sacramento County Sheriff's Office Regional Mutual Aid Coordinator is aware of the event and monitoring as is the Cal OES Law Enforcement Branch Duty Officer. There are no requests for LEMA, and no other unmet needs for this event.

Cal OES SOUTHERN REGION

- Nothing significant to report.

FIRE ACTIVITY

Cal OES Fire Preparedness Levels

National	Northern California	Southern California
Preparedness Level 1	Preparedness Level 1	Preparedness Level 2
	Multi-Agency Coordination System MACS Mode: 1	Multi-Agency Coordination System MACS Mode: 1

Please note: The National and Regional Preparedness Levels are maintained by the National Multi-Agency Coordination (MAC) Group and are separate from Cal OES activation levels.

- Nothing significant to report.

MAJOR ROAD / HIGHWAY / BRIDGE CLOSURES

Major Road Closures		
Northern California	Central California	Southern California

911 Outages/Remote/Community Isolations:

- None reported.

Service Interruptions:

- None reported.

WEATHER OF CONCERN

Weather of Concern

Southern California

- A moist Pacific storm system will move over the West Coast late this coming week, with rain chances spreading across Southwest California Saturday through Sunday, possibly lingering into Monday.
- While it is still early, there is the potential for moderate to brief heavy rainfall with this warm storm system.
- Snow levels will be high, near or above 8,000 feet, and gusty southerly winds are expected.
- Potential impacts will include a chance of mud and debris flows in and below recent burn areas, slick roadways, and urban and small stream flooding.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

The weather pattern will remain unsettled the next several days due to a Pacific trough influence. Timing of the heavier precipitation influence is the main uncertainty due to weather model fluctuations.

The dominant ridge will gradually break down today and tonight. Precipitation will spread from west to east across the area beginning tonight and continue through Thursday and Friday. Storm total liquid water amounts will range between 0.5 to 1.0 inches in the mountains with much lighter amounts within the Sacramento Valley. This system will be a warmer one so snow levels will remain above 5000 feet. S to SW winds will also increase beginning today and peak tonight and Thursday. Predicted speeds have come down slightly with this system passage but the higher exposed ridges will experience readings between 30 to 40 mph, favoring the north. Wind speeds will lower on Friday. Humidity will increase with the increasing wind speeds.

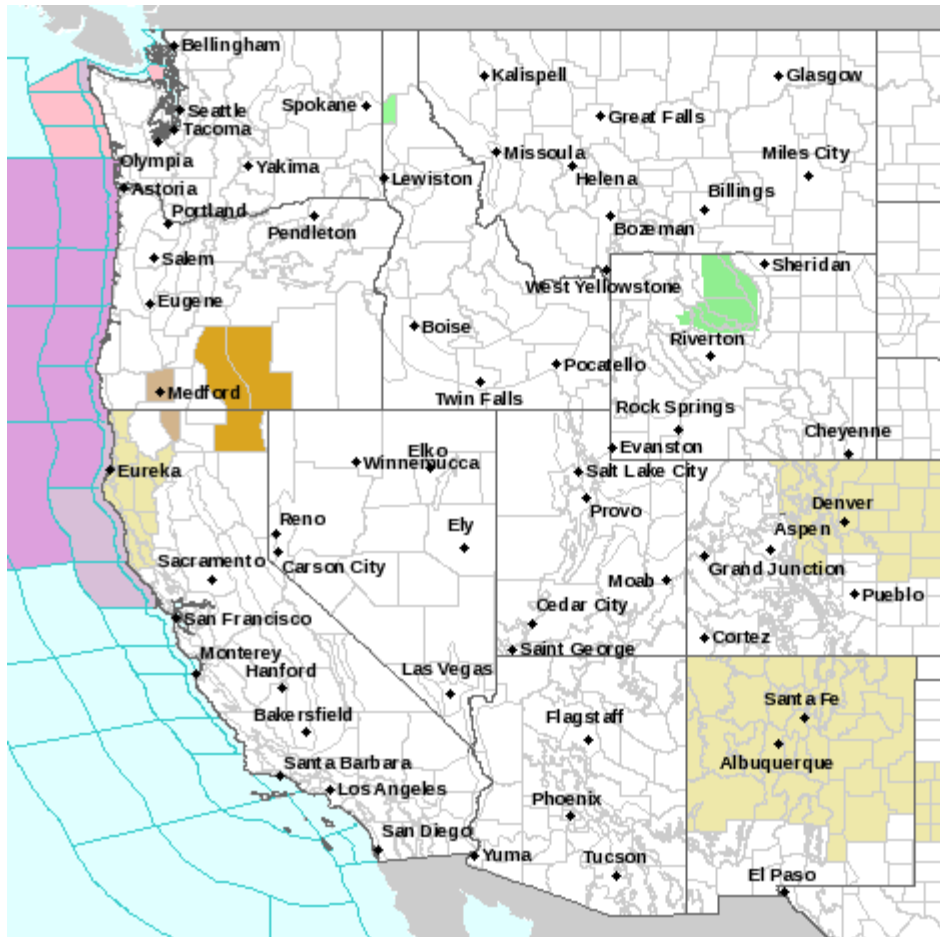

A few spot showers may impact the Northern California region during the weekend and Monday but amounts would be very light and inconsequential. Temperatures would generally be above normal. The main Pacific trough passage has been delayed and is now projected for the Tuesday through Thursday time frame. Widespread wetting precipitation is still anticipated with lower snow levels due to the cooler air.

SOUTHERN CALIFORNIA

A weak ridge of high pressure over California will maintain warm and dry conditions across the region through Thursday. Maximum temperatures will be 5 to 10 degrees above normal, with mid 50s to mid 60s across the mountains and upper 60s and 70s in the valleys. Minimum humidity will be mainly in the single digits and teens today and then humidity will increase from north to south throughout the day Thursday. Winds will be light through Thursday. Temperatures will cool to near normal and humidity will become high Friday through this weekend as the ridge breaks down and zonal flow takes place. A disturbance in the flow will bring showers to Central California starting Friday morning and to Southern California starting Saturday afternoon. Showers will end across the region Sunday afternoon. Most locations will receive between a quarter inch and a half inch of rainfall, but some mountain locations will receive up to an inch of rainfall. The snow level will be between 8,000 and 9,000 feet. Westerly winds of 20 to 30 mph with gusts to 50 mph will surface across the wind prone mountain and desert areas Friday. A weak ridge of high pressure will build into California from the Pacific Ocean which will cause temperatures to become 5 to 10 degrees above normal and humidity to become low once again early next week. Local northeast winds of 10 to 20 mph with gusts to 35 mph will surface across the mountains and below the canyons and passes of Southern California Sunday night through Monday morning.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2018-LAW-45521, 3/06/2018, 1900 hours,** International Emergency Rescue Coordination Center (IERCC) advised of an activation of an SPOT/SOS device. The device was sounding at coordinates 37° 08 minutes 43 seconds N by -121° 59 minutes 6 seconds W. The coordinates plotted to Highway 17 and Summit Road in Santa Cruz County. LDO notified Santa Clara Cruz County Sheriff's Department (SCSD), who advised that SCSD is working a traffic accident there that involved a motor cycle. LDO had information that R/O of the device was riding a motorcycle. **Update: 03/06/18, 2000 hrs,** SCSD advised that the R/O of the device was involved in a traffic accident and transported to a local medical facility. **Mission Closed.**
- **2018-LAW-45527, 03/05/18, 1400 hours,** Sacramento County Sheriff's Department (SCSD) is requesting resources to assist in locating the remains of a drowning victim. SCSD is requesting (2) water certified Human Remains Detection (HRD) Search Dog Teams. El Dorado County Sheriff's Department is responding with requested resources. **Update: 03/05/18, 1900 hours,** SCSD is requesting (2) additional search dog teams to assist with the search that took place on 03/06/18 at 0800 hrs. The Governor's Office of Emergency Services, Law Enforcement Branch is coordinating the search dog team response. **Mission Ongoing**

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties.
- **2018-Southern-44905:** Communications support, Baker to Vegas Annual Challenge Cup, San Bernardino County (Coordinating)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
